**Schedule of Classes
for 2018-2019**

The Public Research Education Program (**PREP**) is a series of CME-accredited classes presented by Northwell Health research support staff and others across the organization, designed to increase the quality of research, enhance and expand investigator capacity, and increase the efficiency of research.

PREP classes are free and open to all Northwell Health employees, students, and volunteers. In addition, interested research collaborators and community partners are also welcome to attend.
